What computer equipment does DrConnect require?

If you have a computer that can access the internet, you can probably use our site. We’re compatible with all current operating systems, and all current browsers. Specifically, we use 128-bit encryption to secure your data — this ensures that only you and the staff at Cleveland Clinic have access to your data.

About Cleveland Clinic

Cleveland Clinic, founded in 1921, is a nonprofit, multispecialty academic medical center that integrates clinical and hospital care with research and education. Today, more than 2,857 Cleveland Clinic physicians and scientists practice in 120 medical specialties and sub-specialties, annually recording more than 4.6 million visits from patients across the United States and from more than 125 countries.

Cleveland Clinic’s main campus, located in Cleveland, Ohio, and comprising 180 acres and 50 buildings, includes a 1,400-bed hospital, outpatient clinic, subspecialty centers with supporting labs and facilities, an education division and a research institute. Cleveland Clinic also operates 18 family health centers; eight community hospitals; a children’s hospital for rehabilitation; one affiliate hospital; a 150-bed hospital, outpatient clinic and education facilities in Weston, Fla.; health and wellness centers in Palm Beach, Fla., and Toronto, Canada; and the Lou Ruvo Center for Brain Health in Las Vegas. Cleveland Clinic Abu Dhabi is a partnership between Cleveland Clinic and the government and people of Abu Dhabi, United Arab Emirates. Scheduled to open in 2013, Cleveland Clinic Abu Dhabi will serve patients in an environment that combines excellent amenities with world-class medical care.

Cleveland Clinic is consistently ranked among the top hospitals in America by U.S. News & World Report, and our heart and heart surgery program has been ranked No. 1 since 1995. Please visit ClevelandClinic.org for more information.
What is Cleveland Clinic DrConnect?

Cleveland Clinic DrConnect is an Internet-based service specially developed to provide physicians who refer patients to Cleveland Clinic secure, real-time information about their patients' treatment progress.

How does DrConnect work?

DrConnect provides registered physician users, and identified office staff with proxy security rights, immediate access to the electronic medical record information regarding encounters and results generated when a patient receives treatment at Cleveland Clinic. The DrConnect work-flow is as follows:

1. Patient arrives at Cleveland Clinic and identifies DrConnect physician(s).
2. Treatment encounter information entered into MyPractice Electronic Medical Record system.
3. Primary physician receives email when new patient information is available for review.
4. Primary physician or select office staff accesses DrConnect to review patient information.
5. Patient returns to primary physician for ongoing care.

Cleveland Clinic DrConnect Brings Real-Time Patient Treatment Information Right to Your Office Every Day

Cleveland Clinic DrConnect offers our physician colleagues unprecedented convenience by connecting you to every step of your patients' treatment progress. Patient data may be accessed through DrConnect for a period of 185 days following the patient's last encounter at Cleveland Clinic.

Cleveland Clinic DrConnect Effective case and time management; a new level of professional collaboration.
